Stylish extras for homeowners...Better value for builders

FIREPLACES
FOR BUILDERS
Fmi

Stunning Looks, Innovative Design

America is moving outdoors. And the new Portofino outdoor woodburning fireplace is the ultimate compliment to any outdoor room. It's the latest Vesta Award-winner in Fmi's exciting new *Mosaic Masonry™* fireplaces with real firebrick liners...and a host of beautiful new features homeowners will love!

Homeowner Highlights:

- **Unparalleled beauty** — These unique fireplaces feature enormous firebox dimensions with a smooth face design in beautiful brushed stainless steel. The absence of any visible sheet metal compliments true firebrick for an authentic masonry appearance.
- **Masonry Firebrick liner** — The Mosaic Masonry™ firebrick lining system positions Fmi's Grand Masters Series as the industry's only real masonry, factory built and UL 127 lab certified fireplaces! The beautiful kiln-fired clay firebrick lining kit is indistinguishable from site-built masonry, and is available in both traditional Warm Red and new Ivory.
- **Uncompromising quality** — Fmi uses only the finest appliance grade stainless steel and kiln-fired clay firebrick. Solid 5/8" stainless bar stock is used our hand crafted and detailed log grates. Checks at each level of production assure a quality product every time.

Builder Benefits:

- **Masonry Firebrick Liner** — The patented Mosaic Masonry™ firebrick kit is a complete masonry lining system of pre-engineered, steel reinforced, kiln fired clay firebrick walls that install as easily as typical factory-built concrete liners, but finish just like site-built masonry. They're even factory grouted to minimize site installation time.
- **Reliability and Versatility** — Despite the authentic, site-built masonry appearance, the Portofino is a true UL 127 approved, "zero clearance" fireplace. This means flexible installation options and guaranteed performance. And... it's approved for indoor as well as outdoor use.
- **Unparalleled Value** — Hand crafted masonry finished fireplace at a fraction of the cost and installation time of site-built; with factory controlled quality, and performance.

Masonry Portofinos are available in 36", 42" and 50" wide openings with Full 30" clear opening height.

Mosaic Masonry™ made simple. All new pre-engineered firebrick system features steel reinforced, factory-built and grouted masonry walls that easily slip into place and securely fasten to the steel fireplace chassis.
